

## Training Options for Administrators

**Our priority is to make sure your online or blended learning program starts off right.**

In this time of unprecedented change, Stride Learning Solutions is prepared to help schools shift rapidly and seamlessly to online and blended learning. Stride Training Options support school leaders, teachers, counselors, and parents so they can meet students' learning needs in new and exciting ways.

Our Training Options for Administrators prepare school leaders to successfully plan, implement, and support teaching and learning in a modern online learning environment—from supporting teachers and paraprofessionals, to communicating with and training parents, to creating systems and schedules that maximize your resources and building space. Additionally, we'll cover how to enroll students in courses, assign instructors to sections, monitor student progress, access reports, and support semester and year-end transitions.

- School startup
- Discipline

## **Sample Professional Learning Modules (PLMs)**

### **• Making the Shift to Virtual Schooling**

Designed for educational leaders, this “Tips for School Principals” session provides specific ideas for moving to online learning. The presentation focuses on training for families, supporting teachers, and leading everyone. The speaker has experience opening a new virtual school and serving as a Learning Coach for children in the online model.

### **• Cultural Levers**

This session looks at the three cultural levers—student culture, staff culture, and school leadership teams—and their role in reaching growth goals. We divide each unit into a specific cultural lever with time for reflection.

### **• Serving At-Risk Populations Virtually**

In this session, we share best practices for serving at-risk populations. Participants receive guidance and learn creative solutions to ensure that at-risk populations are well-served in the online environment.

## **A Variety of Delivery Options:**

- Coaching & Consulting—Customized to fit your needs
- Targeted Webinars—Single topic delivered by a presenter; 60–90 minutes
- Personalized Workshops—half-day to full-year support
- On-Demand Training—Asynchronous, independent learning and development

## **Our professional learning team helps school districts get the most out of their online or blended program.**

Stride Learning Solutions Training Options are developed and facilitated by experienced teachers, administrators, and learning and development professionals who bring a wealth of knowledge of effective online and blended learning strategies. Designed specifically for the adult learner, our Training Options use the Learning Policy Institute's elements of effective professional development: active learning, job-embedded collaboration, modeling, coaching, expert support, feedback, and reflection.

Don't worry if you are new to online or blended learning. Be confident that Stride can help your team maximize digital learning success with the right tools, resources, and professional development. Our client success team will help you identify the right training model for your needs and support you through every step of implementation.

Reach out to discuss how Stride Training Options can help your school district make the transition to effective online schooling.
